Who is RejuvaCare?

RejuvaCare International is a supplier of specialty functional health food, personal care, cosmetic and nutraceutical ingredients. We offer superior quality service and technical solutions.

"RejuvaCare International Pty Ltd is a company focused on providing specialty value added products, quality service and innovation to the personal care, functional foods and health and well being industries."

Home & Personal Care

At RejuvaCare, we work hard to source and supply the best quality ingredients from all over the globe. Our extensive portfolio covers many ingredients from Anti-Ageing Actives to Zinc.

You can rely on RejuvaCare's expert technical advice and ingredients to help you create the 'master piece' products that can differentiate your business in the ever competitive and changing market place. Make sure you have the edge over the others by calling on RejuvaCare.

Functional Food Ingredients

Our top three areas of focus for health and well-being ingredients include: Aged and Anti-Ageing Health Care, Children's Nutrition, Reduced Calorie Intake.

RejuvaCare's Functional Food Division team is unique in that all our business managers hold Bachelor of Science and/or Ph.D. qualifications in Food Science and Technology. Rely on our Business Managers to help you select ingredients to develop functional food products to differentiate your business in the market place.

Nutraceuticals

At RejuvaCare, we constantly strive to source new and innovative, quality products to introduce to the nutraceutical industry.

Partnerships with our suppliers ensure that we can deliver a range of ingredients in a timely fashion, making your purchasing experience a delight.
